Contents

Vol 72 No 1 February 1991

1 *J. Kalra, A.K. Chaudhary and K. Prasad:* Increased production of oxygen free radicals in cigarette smokers
9 *D.R. Haynes, M.W. Whitehouse and B. Vernon-Roberts:* The effects of some anti-arthritic drugs and cytokines on the shape and function of rodent macrophages
23 *N. Rizvi, U.C. Chaturvedi and A. Mathur:* Inhibition of the presentation of dengue virus antigen by macrophages to B cells by serine-protease inhibitors
31 *R. Dhawan, U.C. Chaturvedi, M. Khanna, A. Mathur, B.L. Tekwani, V.C. Pandey and R.N. Rai:* Obligatory role of Ca^{2+} in the cytotoxic activity of dengue virus-induced cytotoxin
41 *S. Zucoloto, A.C. Scaramello, F.M. Lajolo and G. Muccillo:* Effect of oral phytohaemagglutinin intake on cell adaptation in the epithelium of the small intestine of the rat
47 *R. Adatia, J.M. Heaton, K.M. Macgeorge and P.G. Mantle:* Acute histopathological changes produced by *Penicillium aurantiogriseum* nephrotoxin in the rat
55 *D. Baker, I. Kimber, K. Ahmed and J.L. Turk:* Antigen-specific and non-specific depression of proliferative responses induced during contact sensitivity in mice
67 *Hui Kun Teo, P. Price and J.M. Papadimitriou:* The effects of protein malnutrition on the pathogenesis of murine cytomegalovirus disease
83 *I. Florentin, D. Nolibe and J.P. Giroud:* Acute non-immunological inflammation inhibits natural killer (NK) activity in the lungs and enhances metastatic development

Current Status Review

97 *P.M. Brickell:* The c-*src* family of protein-tyrosine kinases
109 **Announcement**

Vol 72 No 2 April 1991

111 *L. Lebel and B. Gerdin:* Sodium hyaluronate increases vascular ingrowth in the ear chamber
119 *R. Mancini, F. Paolucci, G. Svegliati Baroni, A.M. Jezequel and F. Orlandi:* Phenotypic analysis of inflammatory infiltrate in rats with dimethylnitrosamine-induced cirrhosis
129 *S.J. Thorpe and P. Abel:* Detection of blood group A and H-related antigens in normal and neoplastic bladder epithelium: a comparative study using monoclonal antibodies with defined fine specificities
139 *J. Leibovici, G. Klorin, M. Huszar, S. Hoenig and M. Michowitz:* Differential sensitivity to hyperthermia of the F1 and F10 B16 melanoma variants
151 *R. Bellott, A. Bon, J. Lestage, J.-P. Giroud and P. Chateaureynaud:* Evidence for an α2-macroglobulin with complement-inhibiting activity in rat serum
163 *R. Moriguchi, K. Kawahara, Y. Haraguchi and H. Danbara:* A pathological study on the virulence of *Salmonella choleraesuis* associated with 50-kilobase plasmid in mice
171 *P.J. Marles, J.A. Hoyland, R. Parkinson and A.J. Freemont:* Demonstration of variation in chondrocyte activity in different zones of articular cartilage: an assessment of the value of in-situ hybridization

183 *W.E. Stehbens, B.J. Martin and B. Delahunt*: Light and scanning electron microscopic changes observed in experimental arterial forks of rabbits

195 *J.N. Hughes, R. Knight, R.F.R. Brown and T.C. Marrs*: Effects of experimental sarin intoxication on the morphology of the mouse diaphragm: a light and electron microscopical study

211 *V. Arce, F. Brenes and J.M. Gutiérrez*: Degenerative and regenerative changes in murine skeletal muscle after injection of venom from the snake *Bothrops asper*: a histochemical and immunocytochemical study

227 *P. Görög*: Activation of human blood monocytes by oxidized polyunsaturated fatty acids: a possible mechanism for the generation of lipid peroxides in the circulation

239 **Current Status Review**
D.H. Davies, G.A.J. McIndoe and B.M. Chain: Cancer of the cervix: prospects for immunological control

A1 **British Cytokine Group Meeting 9 November 1990**

253 Book reviews

Vol 72 No 3 June 1991

255 *Naoto Yokota, Yoshitaka Yamamoto, Kazuo Kitamura, Nagamitsu Kuroki, Shuichi Hisanaga, Shouichi Fujimoto, Tanenao Eto and Kenjiro Tanaka*: Renal tubular lesions induced by human Bence Jones protein in the rat: N-acetyl-β-D-glucosaminidase as a sensitive marker

263 *J.M.G. Davis, R.E. Bolton, B.G. Miller and K. Niven*: Mesothelioma dose response following intraperitoneal injection of mineral fibres

275 *B. Nabarra and I. Andrianarison*: Thymus reticulum of autoimmune mice. 3 Ultrastructural study of NOD (non-obese diabetic) mouse thymus

289 *V. Jaffe, H. Darby, A. Bishop and H.J.F. Hodgson*: The growth of liver cells in the pancreas after intra-splenic implantation: the effects of portal perfusion

301 *A.A. Pitsillides, S.M. Blake, L.E. Glynn, G.T.B. Frost, L. Bitensky and J. Chayen*: The effect of menadione epoxide on the experimental immune arthritis in the rabbit

311 *K. Schauenstein, A. Csordas, G. Krömer, H. Dietrich and G. Wick*: In-vivo treatment with 5-azacytidine causes degeneration of central lymphatic organs and induces autoimmune disease in the chicken

319 *E.S. Kang, M.S. Galloway, W. Bean, G.A. Cook and G. Olson*: Acute alterations in the regulation of lipid metabolism after intravascular reexposure to a single bolus of homologous virus during influenza B infection in ferrets: possible model of epiphenomena associated with influenza

329 *C.B. Ferry and M.J. Cullen*: Myopathic changes in indirectly stimulated mouse diaphragm after ecothiopate *in vitro*

345 *L.A. Gyure, J.G. Hall, K. Lapis and J. Timar*: The relief of biliary obstruction in experimental rats by diverting the hepatic lymph into the duodenum

349 **Current Status Review**
A.J. Paine: The cytochrome P450 gene superfamily

Vol 72 No 4 August 1991

365 *L. Nässberger, A. Bergstrand and J.W. DePierre*: An electron and fluorescence microscopic study of LLC-PK_1 cells, a kidney epithelial cell line: normal morphology and cyclosporin A- and cremophor-induced alterations

379 *E. Lerma, A. Hevia, P. Rodrigo, R. Gonzalez-Campora, J.R. Armas and H. Galera*: The effect of HeNe laser radiation on the thyroid gland of the rat

387 *B. Fogelmark, J. Lacey and R. Rylander*: Experimental allergic alveolitis after exposure to different microorganisms

397 *M.R. Daniel and H.E. Burnett*: Immunocytochemical investigation of the tissue of origin of two lung cancer cell lines

407 *Mitsutaka Sawada, Kiyoyuki Takahashi, Shinji Sawada and Osamu Midorikawa*: Selective killing of Paneth cells by intravenous administration of dithizone in rats

423 *K. Shibuya, M. Tajima, J. Yamate, T. Saitoh and S. Sannai*: Genesis of pulmonary foam cells in rats with diet-induced hyper beta-lipoproteinaemia

437 *R.F.R. Brown and P.Rice*: Electron microscopy of rat lung following a single acute exposure to perfluoroisobutylene (PFIB). A sequential study of the first 24 hours following exposure

451 *Kioko Kawai, Koreaki Baba, Masachika Senba, Tsuyoshi Nakamura, Yutaka Doi, Tatsuyuki Yamaguchi, Kunitake Hashiba and Hideo Tsuchiyama*: Effect of the adrenal inhibitor trilostane on the morphology of the adrenocortical cells of Dahl salt-sensitive and Dahl salt-resistant rats

463 *D.J.P. Ferguson, D.I. Graham and W.M. Hutchison*: Pathological changes in the brains of mice infected with *Toxoplasma gondii*: a histological, immunocytochemical and ultrastructural study

A13 **British Cytokine Group Meeting 9 April 1991**

Vol 72 No 5 October 1991

475 *A. Kristev, D. Mitkov and J. Lukanov*: Influence of short-chain fatty acids on vascular tone

481 *M. Sugitani, Y.K. Shimizu, J.-i. Azumi, T. Maeda, K. Abe and T. Shikata*: Organ specificity of the antigens reacting with the 48-1 and s-1 antibodies in chimpanzees infected with hepatitis C virus

489 *M. Sanchez-Lanier, L.E. Davis, K.S. Blisard, B.M. Woodfin, J.M. Wallace and L.S. Caskey*: Influenza A virus in the mouse: hepatic and cerebral lesions in a Reye's syndrome-like illness

501 *J.M.G. Davis, A.D. Jones and B.G. Miller*: Experimental studies in rats on the effects of asbestos inhalation coupled with the inhalation of titanium dioxide or quartz

527 *S. Ulker, D. Tok, S. Kosay and S. Oyman*: Effects of ketamine, thiopental sodium and propofol on muscle contractures in rat diaphragm *in vitro*

533 *K.R. Knight, J.V. Hurley, M.J. Hickey, D.A. Lepore and B. McC. O'Brien*: Combined coumarin and omental transfer treatments for canine proximal obstructive lymphoedema

543 *W. Chen, M.R. Alley and B.W. Manktelow*: Morphological and morphometric studies of the airways of sheep with acute airway hypersensitivity to inhaled *Ascaris suum*

553 *Z.A. Andrade*: Contribution to the study of septal fibrosis of the liver

563 *S. Pugh*: A fall in duodenal PGE_2 synthesis precedes histological changes and ulceration in the cysteamine model of duodenal ulceration

571 *D.E. Khoo, B. Flaks, H. Oztas, R.C.N. Williamson and N.A. Habib*: Effects of fatty acids on the early stages of neoplastic induction in the rat pancreas. Changes in fatty acid composition and development of atypical acinar cell nodules

581 *J.F. Laycock, M.C. Barrett and D.F. Woodrow*: Hydronephrosis: prevention by restoration of urinary concentrating ability using desamino-8D-arginine vasopressin (DDAVP) in Brattleboro rats

589 *M. Forte, M. Rahelu, C. Stubberfield, L. Tomkins, A. Pithie and D. Kumararatne*: In-vitro interaction of human macrophages with *Pneumocystis carinii*

599 **Current Status Review**
A.G. Heppleston: The role of surfactant in the pulmonary reaction to mineral particles

Vol 72 No 6 December 1991

617 *K. Hirasawa, M. Takeda, H. Matsuzaki and K. Doi*: Encephalomyocarditis (EMC) virus-induced orchitis in Syrian hamsters

623 *P. Lipiński, Z. Jarząbek, S. Broniek and T. Zagulski*: Protective effect of tissue ferritins in experimental *Escherichia coli* infection in mice *in vivo*

631 *C.J. Powell, P. Grasso, C. Ioannides, J. Wilson and J.W. Bridges*: Haloalkylamine-induced renal papillary necrosis: a histopathological study of structure–activity relationships

647 *R.D. Start, R.S. Loomes and J.R. Shortland*: The relationship between donor age and the growth characteristics of human smooth muscle cultures of aorta and stomach

655 *M.S. Mozaffari, S. Jirakulsomchok and J.M. Wyss*: Effects of simultaneous diabetes and hypertension in an insulin dependent diabetic model

665 *P. Chaturvedi, R. Mukherjee, U.C. Chaturvedi and A. Mathur*: Dengue virus-induced helper cytokine has two polypeptide chains which bear different determinants

673 *J.A. Read and S.M. Burns*: A simple method of separation of *Pneumocystis carinii* from rat lung

679 *P.W. Mathieson, S. Thiru, D.K. Peters and D.B.G. Oliveira*: Effects of ancrod and rtPA on fibrin accumulation, glomerular inflammation and renal function in nephrotoxic nephritis

695 *M.E. Cunninghame, J.G. Evans and W.H. Butler*: An ultrastructural study of spontaneous and phenobarbitone-induced nodules in the mouse liver

705 *D. Taylor-Robinson, H.A. Davies, P. Sarathchandra and P.M. Furr*: Intracellular location of mycoplasmas in cultured cells demonstrated by immunochemistry and electron microscopy

715 *N. Slade, S. Levanat, Š. Spaventi and K. Pavelić*: Collagenase derived from human fibrosarcoma is responsible for degradation of basement membranes

725 **Current Status Review**
I.F.H. Purchase: Evaluation of experimental carcinogenicity studies for human risk assessment

745 Author index to Volume 72
